About Us

I am Allelua Marie Merci , an IT student from CST in year 3. We have covered some modules which allows me to code. I like to do design and enjoy doing front end.

HTML is the set of markup symbols or codes inserted into a file intended for display on the Internet. The markup tells web browsers how to display a web page's words and images.

CSS is a style sheet language used for describing the presentation of a document written in a markup language such as HTML is a style sheet language used for describing the presentation of a document written in a markup language such as HTML

Bootstrap is a powerful toolkit - a collection of HTML, CSS, and JavaScript tools for creating and building web pages and web applications. It is a free and open source project

JavaScript is a programming language that started off simply as a mechanism to add logic and interactivity to an otherwise static Netscape browser.
